

## Ryan Luke Back Home

Ryan Luke has been flown back to Brisbane. He is recovering at home and will start his rehab tomorrow (Friday).

"(I would) just like to thank everyone for the support and donations thru these times and thru his recovery proecess" Ryan's dad, Michael said:

"(I'd) also like to thank all the clubs who have rallied and get well wishes for Ryan. It will be a long healing proecess as Ryan's brain injuries will take a while to heal and he may not totally recover from the accident. I hope to see you all soon, and Ryan tearing up the track again one day."
